ASSA ABLOY Slim & ASSA ABLOY Slim Eco

The system consists of doors with slim line aluminium profiles, operator, safety units and, if required, side screens and overlights. Available for beam- or wall mounting and supplied as bi-parting and single-sliding, all models can be tailored to individual customer requirements, suitable for decorative and functional entrances.

ASSA ABLOY Slim Telescopic & ASSA ABLOY Slim Eco Telescopic

Telescopic maximizes the opening width of narrow passages, providing an impressive solution when space is limited.

ASSA ABLOY Slim Break-Out & ASSA ABLOY Slim Reverse Break-Out

Break-out enables the doors and side screens to swing outward in an emergency, allowing exit through the entire door and side-screen space.
